

# Block #7

Moonlight Quilters 20<sup>th</sup> Birthday Mini-Block of the Month

Block #7 – Shooting Star

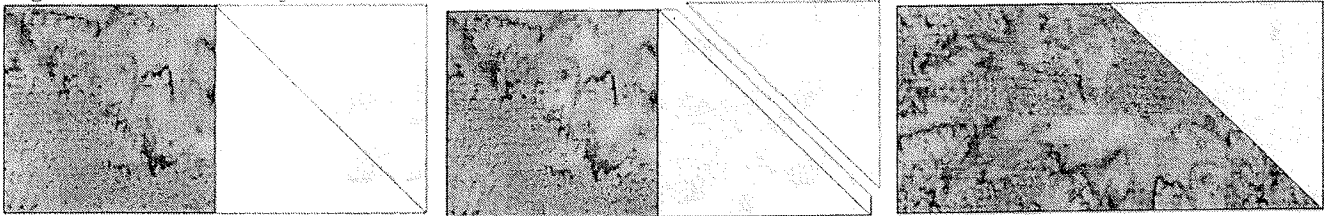

Fabric cuts you will need:

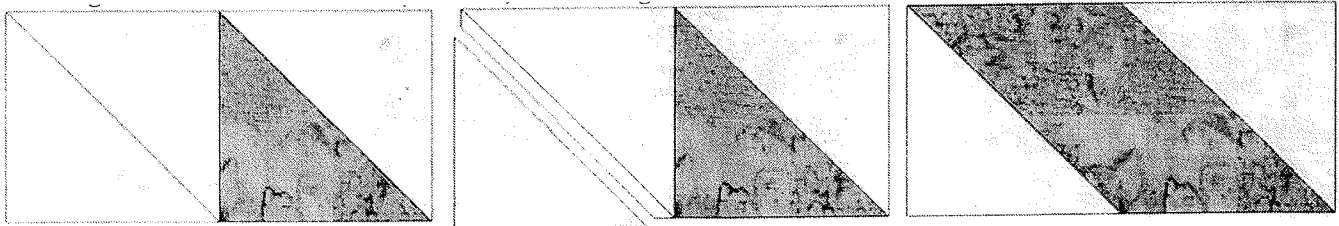

From your background fabric, cut a 2 x 8 inch strip and eight two inch squares.

From your color fabric, cut four 3 1/2" by 2" rectangles and a 2 x 8 inch strip.

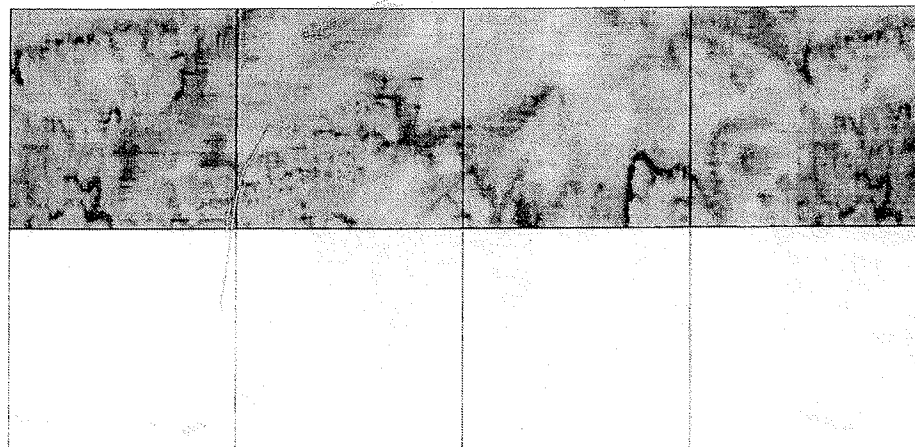

Place a background square right side down on top of a rectangle, with the diagonal line as shown. Sew on that diagonal line. Trim leaving a 1/4" seam allowance. Press.

Now sew another background square on the other end of that same rectangle. Make sure your diagonal line is going in the right direction. Sew on the diagonal line, trim leaving a 1/4 inch seam allowance and press.

Repeat with the remaining three rectangles. Next, sew right sides together your long inch strips. Cut that strip into 2" segments.

Sew together each unit as shown here, and then sew the four units together as shown above. Your Shooting Star block should measure 6 1/2" (6" finished.)
